

Who is Agrievolution?

Agrievolution is a global organization representing some 6000 agricultural equipment manufacturing companies. National and regional associations represent and present the views of the agricultural machinery manufacturing sector from a global perspective. Through its direct access to industry executives and experts around the world, Agrievolution is a source of unique data sets and insights.

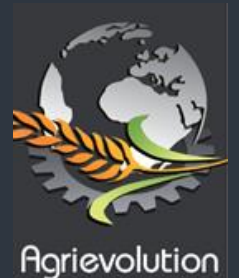

What is our mission?

Our mission is to advocate for global mechanization for sustainable agriculture, raising awareness of the vital role that agriculture mechanization and its precision agriculture technologies play as our world strives to achieve sustainable global food security.
